

PRX Derm Perfexion

Pre Care

- Schedule a consultation to assess your skin type and concerns, allowing your practitioner to tailor the treatment accordingly.
- Discontinue the use of retinoids, AHAs, BHAs, and other exfoliating products for at least 5 days prior to your treatment.
- Limit sun exposure and use a broad-spectrum sunscreen in the days leading up to your treatment to minimize skin sensitivity.
- Keep your skin well-hydrated in the days leading up to the treatment to promote better results.

Post Care

- Use a mild, non-exfoliating cleanser for the first few days following your treatment to avoid irritation.
- Keep your skin hydrated with PRX post care moisturizer, WiQo cream applied twice per day.
- Protect your skin from sunlight immediately after treatment. Use a high-SPF sunscreen and avoid direct sun exposure for a few days.
- Avoid strenuous exercise, saunas, and swimming for 72 hours post-treatment to minimize the risk of irritation.
- Schedule follow-up appointments to assess your skin's progress and discuss any additional treatments needed for your individual goals.
